

MUHAMMAD HUSSAIN

Cybersecurity Student | Web Application Security | Vulnerability Assessment

Islamabad, Pakistan | 03490054944 | mhussainx94@gmail.com | linkedin.com/in/mhussainx94 | github.com/mhussainx94

PROFESSIONAL SUMMARY

Cybersecurity-focused Computer Science student at NUTECH with hands-on experience in web application security testing, vulnerability assessment, and security automation. Conducts freelance and authorized assessments using OWASP-aligned methods and communicates findings through clear, prioritized remediation reports. Builds Python-based security tools and is developing practical expertise in Linux, network security, and secure application testing.

TECHNICAL SKILLS

Security testing: Burp Suite, OWASP ZAP, Nikto, Nmap, Nessus Essentials, testssl.sh

Frameworks and domains: OWASP Top 10, OWASP WSTG, PTES, CIS Benchmarks, web application testing, network scanning, SSL/TLS analysis

Programming and platforms: Python, Flask, Bash, Linux/CLI, Wazuh

Reporting: Vulnerability reports, security audits, CVSS-based risk prioritization, remediation recommendations

EXPERIENCE

Cybersecurity Intern | National CERT Pakistan

- Completed multiple cybersecurity tasks during the internship and developed practical experience applying security concepts to technical work.
- Participated in Vulnerability Disclosure Program work and conducted security scanning of a real government website in Pakistan within the program scope.

Freelance Security Tester | Fiverr | Islamabad, Pakistan

- Conduct web application security assessments using Burp Suite, OWASP ZAP, and Nikto.
- Report OWASP Top 10 issues and deliver clear, prioritized remediation guidance.
- Perform network enumeration and SSL/TLS checks with Nmap, Nessus Essentials, and testssl.sh.

SELECTED SECURITY PROJECTS

Odoo Security Scanner v2.0 | Python, Flask, Modular Architecture, CVE Database

- Built an automated security-auditing framework for Odoo ERP deployments with nine scanning modules, a Flask web interface, and local CVE lookup.
- Implemented Odoo-specific attack-surface checks, weighted risk scoring, and JSON, TXT, and HTML report generation.
- Repository: github.com/mhussainx94/odoo-security-scanner

NUTECH NIMS Odoo | Authorized Web Application Penetration Test

- Conducted an authorized black-box to grey-box assessment of NUTECH Integrated Management System Odoo 14.0 Enterprise using OWASP WSTG and PTES methodology.
- Delivered a confidential penetration-test report with eight findings across four severity levels, CVSS scoring, reproduction details, and remediation recommendations.

ADDITIONAL PROJECTS

Onion Web Crawler and Risk Analysis System | Python, Tor, BeautifulSoup, Tkinter

- Built a Python-based crawler for educational security research that accesses and analyzes .onion sites through the Tor network.
- Implemented keyword detection, site classification, risk-level assignment, structured TSV output, and a Tkinter review interface.
- Repository: github.com/mhussainx94/onion-web-crawler

Network Security Hardening Audit | Nmap, Nessus Essentials, CIS Benchmarks

- Performed network enumeration, identified unpatched CVEs, benchmarked configuration against CIS security standards, documented remediation, and re-tested fixes.

Web Application Vulnerability Assessment | Freelance

- Performed black-box and grey-box client testing with Burp Suite and OWASP ZAP; documented XSS, SQL injection, and open redirect findings with patch recommendations.

EDUCATION

Bachelor of Science in Computer Science | National University of Technology (NUTECH) | Sep 2024 - 2028 | Islamabad, Pakistan

- Relevant coursework: Network Security, Operating Systems, Data Structures, Programming Fundamentals.

Intermediate | Punjab Group of Colleges | 2022 - 2024 | Punjab, Pakistan

CERTIFICATIONS

InnoQuest Cybersecurity Bootcamp - National CERT Pakistan (InnoVista) | Google Cybersecurity Certificate (Coursera) | Cybersecurity for Everyone - University of Maryland (Coursera)

Tools of the Trade: Linux and SQL - Google (Coursera) | Google Data Analyst Certificate (Coursera) | IBM Generative AI Essentials (Coursera)
